

CSS Exercise 1

Download bear.html from Canvas and create a bear.css to change the page with the following requirements:

- Change the whole page's font to Georgia and background color to #FBF9ED
- Change heading 1 text color to #F49C6A, with font size 5em, centered, with top padding 50px.
- Change heading 2 text font to Courier New and all capitalized
- Change heading 3 text font to Helvetica and font weight to 200
- Change "Brown Bear About Me" links to color #F4C7A8
- Change "Introduction Habitat Media" links to color #B57493 with font size 1.5em
- Change the habitat section's text color to white with a background image at <https://s3.amazonaws.com/misy350/bg-tree.jpg> (set the image size to cover)
- Change the bear's image to "rounded" using border-radius property with value 100%

Screenshots:

Brown bears are not always completely brown. Some can be reddish or yellowish. They have very large, curved claws and huge paws. Male brown bears are often 30% larger than female brown bears. They can range from 5 feet to 9 feet from head to toe.

HABITAT

Countries with Large Brown Bear Populations

1. Russia
2. United States
3. Canada

Countries with Small Brown Bear Populations

Some countries with smaller brown bear populations include Armenia, Belarus, Bulgaria, China, Finland, France, Greece, India, Japan, Nepal, Poland, Romania, Slovenia, Turkmenistan, and Uzbekistan.
